

## Camel Milk is Safe and Health Conducive in Health Emergency COVID-19

### Description

Camel milk is not only safe but gives you vitality and natural support in coping with the health emergency, the COVID-19. For the last few days, I have been noticing some rumors circulating on social media narrating to avoid camel milk in COVID-19 emergency. As an official statement from the camel milk community, I hereby reject such false assumption and ask you to please take camel milk as a safe and healthy food as usual. Also, those who are not on camel milk or have no experience with the camel milk should come to this rich food.

Here are some key reasons why you should take camel milk not only as a food but as a very rich and naturally fortified bar. The camel milk (CaM) strengthens and revitalizes your body because of the following reasons.

- a. Making you stronger and naturally Immunized: CaM is rich with super molecules like lysosomes, lactoferrin, Vit. C etc, helping in strengthening the body defence system. <https://camel4all.info/index.php/about/camel4milk/>
- b. Biochemical Balance: Due to its unique composition and super balance of minerals, vitamins, fatty acids, and amino acids the camel milk provides a very healthy biochemical balance to the body. Such a good biochemical balance provide a medium for effecient physiological performance inside the body.
- d. Hormonal Calmness: The camel milk enhances the performance of the endocrine system in the body because of its nutrients, and its balance, which lead to a superbalance of the hormones. Such balance minimizes the shocks of the stress and strokes.
- f. Antiinflammatory effect: Because of its special micronutrients (nanobodies), camel milk enhances the performance at cell and tissue level which helps in effecient metabolism.
- g. Boost natural secretion: The camel milk boost the production of natural secretions and enzyems inside the body. Such secretions act as laxative, washing/flushing body, lowering load of oxidents and poisonous residues which ultimately help in keeping the body performance very good and effecient.
- e. Helping hand in good sleep: The above mentioned performance of camel milk in the body boost and revitalize the body and help in a very good and deep sleep.
